SUMMARY

Hi! I am Taha Umar, a Front End Web Developer focused on crafting great web experiences. Designing and Coding have been my passion since the days I started working with computers but I found myself into web development since 2020. I enjoy creating beautifully design and functional websites.

PROFESSIONAL EXPERIENCE

Snow Dream Studios   **OCT 2023 - Present**
Web Developer
- Led the development of dynamic and scalable web applications using React, Next.js, PHP, and Laravel, delivering high-quality solutions tailored to client needs.
- Implemented RESTful APIs and integrated third-party services to enhance application functionality and improve user interaction.
- Optimized website performance, ensuring fast load times and responsiveness across devices, while adhering to best coding practices and security standards.

Snow Dream Studios   **JUN 2023 - SEP 2023**
Internship as a Front-End Web Developer
- Collaborated with a team of developers to design and implement front-end features, ensuring cross-browser compatibility and performance optimization.
- Assisted in debugging, code reviews, and project management, contributing to the successful delivery of multiple client projects.
